

Fax Reply:

For registration, please use on-line registration under www.minit.org, or send a fax to:

Fax: +49 (0)3328/435-225 (MINIT Conference Office)

- I will attend the **International Forum on MicroNano Integration**
- I would like to give an oral presentation (deadline for abstract submission: **June 30, 2003**)
- I would like to present a poster (deadline for abstract submission: **June 30, 2003**)
- I am interested in using the pre-arranged meeting service (further information will be provided)

Conference Fee:

Early Registration: 600,- EUR (before May 15, 2003)
Regular Rate: 750,- EUR

Method of payment:

- Credit Card Money Transfer

International Forum on MicroNano Integration MINIT From Science to Application

Call for Papers

Potsdam, Germany
December 3-4, 2003

Organiser:
Innovation Relay Centre
Northern Germany

Represented by:
VDI/VDE Technologiezentrum
Informationstechnik GmbH

VDI/VDE-IT

Scope:

In recent years, micro- and nanotechnologies have become key technologies with a significant effect on the development of new products and production methods. Moreover, due to their enormous potential for new applications, micro- and nanotechnologies, in future, will increasingly affect our everyday life, with an impact, comparable to that of the industrial revolution in the 19th century, or the developments in microelectronics in the 20th century.

The **International Forum on MicroNano Integration** addresses micro- and nanotechnologies with a strong focus on synergy effects given by combination and mutual integration of both technology areas. Hence, the **International Forum on MicroNano Integration**, will provide a forum for researchers from industries as well as from research institutes for contacting, exchange and starting common research activities. The **International Forum on MicroNano Integration** will cover a broad range of basic technology aspects with a strong focus on applications.

In most cases, micro- and nanotechnology go hand in hand with each other: nanotechnology devices need an implementation into a microtechnology environment, working as a linkage to the macroscopic world. On the other hand, microsystems benefit from novel functionality given by nanotechnology components.

The **International Forum on MicroNano Integration** will include oral presentations and a poster session. In order to enhance technology transfer from institutes to industry on a transnational and interdisciplinary level, a pre-arranged meeting service will be organized.

Topics:

- Innovation Aspects of MicroNano Integration
- MicroNano Systems and Devices
- MicroNano Devices for Information Technologies
- MicroNano Devices for Biomedical Applications
- Frontiers of MicroNano Fabrication and Engineering
- Metrology and Standards

Target Groups:

- Industry
- Universities and Research Centres
- Investors
- Public Bodies

Co-ordinates:

Date:	December 3 - 4, 2003
Venue:	Hotel Dorint Sanssouci Jägerallee 20 D-14469 Potsdam, Germany www.dorint.com/potsdam
Deadlines:	Abstract Submission: June 30, 2003 Early Registration: May 15, 2003
Conference Fee:	750,- EUR 600,- EUR (Early Registration)
	Conference fee includes:
	- Conference book
	- Conference diner and catering

Conference Office:

VDI/VDE-IT
Innovation Relay Centre Northern Germany
Rheinstrasse 10B, D-14513 Teltow, Germany
www.vdivde-it.de

Call for Papers

With this announcement we are addressing representatives from industry as well as from academia to submit papers for the conference.

If you are interested in presenting a paper, please send a one page abstract in English by **June 30, 2003** to the **MINIT** conference office. The abstract should clearly describe the scope, key points and significance of the paper.

Abstracts should be submitted by e-mail to **abstracts@minit.org**. The preferred format is PDF or Microsoft Word. Selection of papers by our Steering Committee will be made until **October 15, 2003** and the authors of accepted papers will be informed immediately.

Pre-Arranged Meeting Service

The **International Forum on MicroNano Integration** supports bilateral interaction by offering a service for pre-arranged meetings. Interested conference participants may identify potential collaborative partners in advance and individual appointments will be arranged during the conference.
